

IEEM2025 Final Program is Out!

Discover what awaits you at IEEM2025 – the premier gathering for researchers, industry leaders, and professionals in engineering management and innovation. This year's conference features over 500 technical presentations across about 20 key topics in industrial and engineering management, alongside insightful keynote presentations by global experts.

Whether you are an academic, industry professional or policy maker, IEEM2025 offers a rich platform to explore cutting-edge research, emerging technologies, and practical innovations.

Join us in Melbourne this December and experience the forefront of engineering and management excellence!

Key Conference Highlights:

• Inspiring Keynotes:

Saeid Nahavandi

"Transitioning from Industry 4.0 to Industry 5.0: A Human-Centric Approach"

Andrea P Belz

"Public funding to cross the Valley of Death: Space as a laboratory"

• Choose from over 40 sessions covering 20 key topics
